Dry Thin and Falling Hair and Red Rough Hands Prevented by

LLIONS use Cuticula Soap, assisted by Cuticula Ointment, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, in the form of baths for annoying irritations and inflammations, or too free or offensive perspiration, in the form of washes, for ulcerative weaknesses, and for many sanative, antiseptic, cleansing purposes which readily suggest themselves to women, especially mothers, and for all the purposes of the toilet, bath, and nursery. Concura Soar combines delicate emollient properties derived from Coticura Ointment, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odours. No other medicated soap is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in the Soar at One PRICE, the BEST skin and complexion soap, and the est toilet and baby soap in the world.

COMPLETE EXTERNAL AND INTERNAL TREATMENT FOR EVERY HUMGUR, Consisting of Cutrum Soar, to cleanse the skin of crusts and scales, and soften the chickened cuticle; Cutrum and Continuent, to instantly allow itching, inflatomation, and writation, and soothe and heal; and Cutrum Resolvent Pills, to cool and cleanse the blood. A Single Set is often sufficient to core terturing, disfiguring humours, eczemas, makes, and irritations, with less of bair, when all else fails. Soid throughout the world. Australian Depot: R. THE PEMBROKESRIRE.

Finding of The Court.

The following is the finding of the Naval Court of Inquiry at Shangbai with regard to the stranding of the Pembrokeshire :---That the master, Ernest James Liddle, was in error in making insufficient allowance for wind and for the tidal streams as shown on Admiralty Chart No. 1602 and that not having seen the North Saddle Light and being on his own reckoning at 9.18 p.m. 7 miles from the North Saddle Island, he was not justified in altering his course to S 52 deg. E. (Mag.) at that hour. That the master Ernest James Liddle appears to have navigated his vessel in a soamanlike and proper manner, and when n casualty was inevitable to have done everything in his power to avert it, and that he is descriing of all credit for the persevering mannner in which he succeeded in bringing the vessel off and safely into dock. That the Log Book has been well kept and that the vessel appears to have been properly supplied with charts. The Court considers that the information regarding the abnormal set of the current as the mouth of the Yangtsekiang River is not sufficiently promulgated for the guidance of the masters of foreign trade steamers, and the Court suggests that the advice in this regard published in the China Sea Directory, Vol. III, 412 and 413, should be given more prominence. The Cout is of opinion that in view of the fact that the North Saddle Island Light is frequently obscured, by fog banks hanging over the island when the surrounding locality is clear, that a continuous fog signal of some description should be sounded from the Light house when enveloped in fog. As the Court does not consider the casualty is in any way due to the negligence of the master, and as he was not in possession of the special information as to the abmornal set of the current on the night in question, they do not consider it necessary to deal with his certificate. That in accordance with the powers contained in section 480 of 57 and 58 Vic., c. 60, the Court orders that the sum of £4. 7s. 0d., being the costs of the proceedings before the said Court, be paid by Ernest James Liddle, master of the a.s. Pembrokeshire and he is hereby ordered to pay the said amount: accordingly. The expenses of this Court fixed at £4.7.0 are approved. Dated at Shanghai, this 19th

(Signed) B. G. Tours, British Vice-Consul, President of Naval Court; H. Porcy Douglas, Lieut., R.N., H.M.S. Rambler; and James Gibbs, Master, a.s. Tientsin.

£14,700 FOR A PICTURE.

For no fewer than 14,000 gainess the full-length portrait of Sir John Sinclair, of Ulbster, colonel of the Caithness and Rotherny Fencibles, by Sir H. Raeburn R.A., was on May 21 knocked down to Mr. Martin Colnaghi, the bidding starting at £5,250. Of this particular Racburn, Sir Walter Armstrong wrote that it formed a picture which, in some respects, the artist never bettered. Another notable picture sold at the same sale was Gainsborough's portrait of Elizaboth Foster, Duchess of Devonshire. Although this is not the 'missing Duchess, it has a scarcely less interesting history.

It was sold to Mr. E. P. Redford for 900 guineas. In painting it in 1778 Gainsborough, to please Lady Betty, blended his usual manner with the style of Reynolds, as the future Duchess jokingly told him he made his subjects • too pretty.' The Duchess gave the instructions that he was not Foster left for Australia in 1850, and some years after his death Mr John Foster, his son, brought it to England. For convenience in moving it was cut out from its frame and rolled up, and thus it remained for many years. In 1868 Mr John Foster returned to Sydney, and, having by this time some idea of the great value of the painting, he kept the canvas roll in a long box, labelled 'Fishing rods.' In spite of these precautions, the picture was stolen from Mr Foster's sitting-room at his Sydney residence, and was only recovered by great good fortune, as it had been deposited in a snipping office by the Tin. thief, who meditated bringing his booty to England. After the commotion caused by the theft of Messrs. Agnew's 'Duchess,' My Foster brought the picture to London, and in England it has since remained. Gainsborough's HONGKONG HIGH-LEVEL TRAMportrait of the Hon. Mrs Hamilton went for 360 guineas, and a full-length portrait of the celebrated Nancy Carey by J. Roppner, R.A., realised 1,650 guineus.

SATURDAY, JUNE 27, 1903. Recurring to the possible

precautions which may be taken by the authorities to prevent or minimise plague in this Colony, there can be little doubt that

men who were formerly mounted baudits. the state of our drains must be consider-According to several pessimistic Deceived Postal Officials. authorities here, the plague merely comes without any reason, works itself out as it willeth and then goes away. How any sensible person can bring the post office without detection. himself to believe that such is the case, it is difficult to understand. There must be some reason for this annual The Osaka Ricksha Trouble. epidemic, which always finishes about the same time in the year. As this invariably happens after the heavy rains come on, this fact would seem to point to the conclusion that, as the drains get flushed, the rats, and filth and rubbishiget cleared away, and the cause of the scourge is gone until another season's filth has had time to accumulate in the sewers ready to resume the annual dance of death. Orient, has decided to create embassies in Even if the drains are not responsible for all our plague conditions, they must bear some of the blame, and it is clear something should be done towards keeping them swest and clean. This object can be gained, as we have previously pointed out, for an expenditure which to a very important place like Hongkong is very small. By simply building salt water tanks on the upper steamer. There are now over 6,000 imdrains in the lower parts of the city, a release after examination by the Governtransformation in the sanitary conditions of the Colony would secured. It is rather difficult to understand why this work is not proceeded with at once, and we would call the attention of the unofficial Members of

Council, to advocate its being undertaken with as little delay as possible. H. E. the Governor has done much, indeed no one could have done more personally than he has done, in examining for himself and in trying to alleviate the sufferings of those afflicted with the disease. But we contend that operations is estimated at Y50,000. prevention is better than oure, and now is the time for prevention. His General Kuropatkin's Dress. Bluejackets as Ricksha Pullers.

British blue jackets are always ready for a spree when they come ashore, says the Kobe Chronicle. Sometimes the ex uberance of their spirits brings trouble upon them, but more often than not their games are of a harmless character, and generally flavoured with a touch of originality. Some of the sailors and bandsmon of the British men-of-war recently anchored off the old forts of Shinagawa came ashore the other morning and went for a tour round in jinrikishas. They had seen all that was to be seen, when the suggestion was made that the kurumaya should get inside the 'rikisha while the sailers did the pulling. The proposal was accepted, not without some reluctance the part of the 'pull men,' and fo the amazement of the inhabitants the tars their heavily-soled shoes clattered through the streets pulling the pullers. Needless to say the appearance of sailors between the shafts created no little amusement.

The Water Supply.

Mr Frank Browne, Government Analyst, in his report for 1902 stated that the results of the analyses of samples taken each month from the Pokfulum and Tytam reservoirs, from the Kowloon Service, and the Cheung Sha Wan supply, indicated that those supplies continued to maintain their excellent qualities. Owing to the scarcity of the public supplies in Victoria during the first few months of the year, water had to be brought over from a stream at Tsin Wan. Owing to the possibility of that water becoming contaminated, daily examinations were made from March 17th to May 21st. After heavy rain the turbidity lasting for about 36 hours was caused, but, otherwise, the quality of the water remained unimpaired.

In his annual report for 1902 the Government Analyist," Mr Frank Browne stated :- In connection with some enquiries would take place as soon as order in the buildings it was necessary to examine several mortars. In order to observe the effect of the heavy rains of 1902 on good and bad mortars, samples were prepared containing various proportions of lime and red earth. It was found from experiments lasting over three months that mortars, when not con-Chun-hauan intended to make Chaochingfu Prince Ching had stated in a previous taining more than eight volumes of red earth to one volume of lime, became harder when kept under water, than when exposed learns that as the rebellion in Kwangai has might be in no way related to the matter in the ordinary way. NOTES AND NOTIONS.

BY BEAUX ESTRITS. THE CURSE OF BRIDGE-CHINESE AND

THEIR LANGUAGE—Some OF ITS PITEALLS. The game of bridge, which seems to be daily increasing in popularity in the East, is now being cursed with a vengeance in certain quarters at Home as a social evil. That was amply indicated by an article published in the China Mail of Thursday. Clergymen, in particular, are up in arms, and they are conducting a crusade to secure its suppression owing to the desire it is creating amongst women to gamble. The fascination of bridge gambling is proving the remation of many women, it is reported, and is even leading young girls financial destruction. The humiliating asnect of it is that girls, feeling that it not dishonourable to lose at a games which is countenanced at their own home and indulged in by their own elders, show no hesitation in writing to men friends, and sometimes mere acquaintances, for loans. They dare not appeal to their fathers or brothers, of course, and what their end going to be when under obligation to men riends for sums of money, it is difficult to say. The clubs for women which are gradually becoming stronger do nothing but fester the evil. and the chances are that before long the ladies will be wanting

It looks like a mass of signs, dots and dashes, but is really inteldend for the years 1903, 1904 and ligible. To express the words 'flattery' and 'treacherous' the Chinese employ the character meaning 'woman' in combination with other characters. Sometimes the Chinaman knows very little of pidgin English; sometimes he knows a lot, and you think he knows little, but in either case the efforts to make him understand end sometimes very peculiarly. The boy walken off. He did not understand English, but he wanted to demonstrate that he did. He knew that upstairs had been alluded to and guessed that something was wanted, and believing that 'shos-leather' sounded something like cigars, he skipped up to the American's room, and shortly afterwards appeared, to the surprise of everyone, with a cigar box, which he gently handed to the American. The look of astonishment on that gentle mun's face was something to be remembered, and all he could ejaculate was a desire to have the same treatment meted out to himself as is accorded the water at Tytam

and Pokfulum reservoirs. A rather good joke occurred one day in a Homo Court. A Chinaman was the accused in a case and the Magistrate inflicted a fine of £1. John did not understand. 'Pay one pound,' said the Magistrate. The Chinaman preserved a brick wall countonance. 'You have to payee one poundee, said the clerk. Still the brick wall, Youce havee toce payee one-ee poundee, said the warder. The Chinaman regarded him with the gaze of an oyster. Then uprose the prosecuting counsel. BUILDING OPERATIONS IN THE CITY.

Some Spacious Structures.

Of late builders have been extremely busy about the city and up on the hill-sides. On the Praya several handsome structures are springing up, and the grass-grown plots of a few years ago have entirely disappeared. The wet weather has interfered somewhat but notwithstanding that good progress has been made. In Praya Central no less than seven large buildings, intended for hotels, offices, stores, etc. are under construction. A six-storied building is being erected opposite the Hongkong Hotel, and we gather that the upper floors will be utilised by the Hotel as bedrooms. The floors have been divided off into 75 spacious bedrooms, with bath accommodation for each room. The ground floor, which has already been almost completed, consists of six large sized rooms which will probably be used as stores. Across the roadway stands the almost completed building of the Hongkong Land Investment Company, which will be handed over to the owners' by the architects in about 11 months; after a three years' centract. This construction is similar to the Queen's and the above Ports, on TUESDAY, 30th Inst., Princes' Buildings situated a few blocks at 11 a.m. shouted the Chinaman; 'he only say one away. It is also fitted up for thouse of etc. Each floor, with the exception of the ground floor, is divided into about 30 large rooms, all of them being fitted up with Some of the rooms fire-places, etc. are also designed for bedrooms, and are [supplied with separate bath-rooms, Bal- INDO-CHINA STEAM NAVIGATION conies, supported on marble pillars at each floor, surround the building. The right portion of the ground floor is being fitted out for the new stores of Messrs A. S. Watson and Co., whilst the left, evidently intended for a gold-smith and jewellers store, is provided with strong rooms. The Hotel occupies the piece of land facing the This Steamer has superior Accommodational building for the King ruward 4 p.m.

Steams' Wine of Cod Liver Oil contains loil without the nauscating oil itself. Thanks to the great scientific discovery above referred to, the valuable extractive principles are entirely separated from the oil and combined instead with a rich fullbodied wine, to which is added pentonate of iron. The result is a liquid which is at once a touic, tissue-builder, and a wonderful nourisher.
